First Term Exams 2025 Result Gazette

INNOVATIVE SCHOOL & GIRLS COLLEGE

Inspiring Young Minds Through Quality Education

Message by Principal

It gives me great pleasure to announce the publication of the First Term Examination 2025 Results through our newly launched Online Result Management System, marking a major step toward digital transformation and transparency. This innovation enables parents and students to view results in real time and apply online for rechecking, ensuring efficiency, fairness, and accessibility for all.

Transparency has remained our foremost priority throughout this examination cycle. Every paper was evaluated through a strict, multi-step checking process to ensure complete fairness and accuracy. I am proud to state that 100% transparency was maintained from paper setting to result compilation, reflecting our teachers' dedication and integrity in upholding academic standards.

While we celebrate this milestone, we must also acknowledge that a few Unfair Means (UFM) cases were reported and addressed in accordance with school policy. These instances remind us that true success is achieved through honesty, diligence, and discipline. I urge all students to continue pursuing excellence with sincerity, as education is meaningful only when grounded in ethical values.

This digital system not only enhances parental engagement but also strengthens accountability across all levels. The upcoming Parents–Teachers Meeting (PTM) on Saturday, 11 October 2025, from 9:00 AM to 12:00 PM, offers an important platform for collaboration. Together, let us continue building Innovative School as a model of integrity, innovation, and academic excellence.

Message by In-Charge Exam Cell

It is a matter of great pride to present the First Term Examination 2025 Results, published for the first time through our Online Result Management System. This marks a major milestone in our commitment to digital innovation, transparency, and academic efficiency. The new platform allows parents and students to view results instantly, check subject-wise performance, and submit online rechecking requests, ensuring a smooth, accurate, and paperless process.
Every phase of result preparation was carried out with 100% transparency and accuracy. Papers were coded and evaluated under a double-blind review system to eliminate bias, while automated cross-checks verified all entries and calculations. These measures reflect our unwavering dedication to fairness and the integrity of our academic standards.
A few Unfair Means (UFM) cases were reported during the examination, which were investigated and resolved strictly according to school policy. Such actions reaffirm our stance that success must be earned through effort and honesty. The Examination Cell remains determined to uphold discipline, integrity, and merit at every level of assessment.
This new digital initiative is not only a system upgrade but a transformation in how we manage evaluation and feedback. It strengthens communication between school and parents, empowers students to track their progress, and ensures transparency in all academic dealings. We extend our gratitude to all teachers, staff, and administrators whose hard work made this milestone possible. Together, we continue to advance toward excellence in education and innovation.
